

Sandra Zanetti is a multidisciplinary artist whose work traverses performance, installation, sound, and moving image. Across shifting formats, she explores vulnerability, power dynamics, emotional survival, and the fragile play between resistance and surrender.

Through visceral performances and immersive environments, Sandra confronts the personal and collective experiences of conflict, tenderness, and transformation. Her work dissolves boundaries between spectacle and intimacy, inviting audiences into raw, unsettled spaces where new dialogues can emerge.

During the residency, Sandra will continue to expand her practice rooted in physicality, sound, and social commentary—bringing a dynamic and charged presence into the collective exploration of myth, belonging, and reimagined realities.

Her bio:

Sandra Zanetti is an artist exploring imposed limitations, power dynamics, and the tensions between contradiction and duality. Their practice weaves set design, movement, installation, and text into complex scenarios that navigate history, subculture, and personal mythologies—resulting in visceral, unsettling, and darkly humorous experiences.
